DETAILED ACTION

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error being relied upon as a basis for the reissue and that is indeed an appropriate error for reissue (37 CFR 1.175(a)(1)). See 37 CFR 1.175(a)(1) and see MPEP § 1414.

2. Applicant added new claims 19-44. If new claims are presented, their differences from the original claims must be pointed out. Applicant filed a statement in the declaration stating that "one or more steps were erroneously added to claim 1 and thus unnecessarily limit the scope thereof. This is not an acceptable statement of an error. MPEP section 1413 requires that statement must identify the differences between the new claims from the original claims. For example, the specific steps and limitations that are removed from claim 1, and/or any differences between the new claims and other original claims.

3. Claims 1-44 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Del, Bohn, Hartman, and Kodokian disclose methods and devices for producing multilayer boards.
